

Hospital Facilities

Sometimes you need expert care above and beyond your regular doctor or urgent care. Whether that's cardiovascular care, cancer treatment, parent-baby services or surgery, you'll likely need to visit a hospital or medical center.

With St. Luke's Health Plan, you can visit any one of our in-network facilities across the 20-county coverage area, providing care where and when you need it. In-patient and out-patient hospital services at these locations are covered at in-network costs for St. Luke's Health Plan members.

Emergency care will always receive in-network benefits, regardless of whether the provider or facility is considered in-network.
